

Groupe Molior's second *Mission* to China.

Joining the **Mission Quebec - China 2005** delegation, Andrée Duchaine will be travelling to Beijing and Shanghai for the second time this year promoting the work of Canadian new media artists. Invited by Line Beauchamp the Minister of Culture and Communications to join **Mission Quebec - China 2005**, Groupe Molior is one of seven cultural organisations representing Quebec arts and culture in China on this *mission*. Along-with with the Cirque du soleil, the Musée de la civilisation du Québec, CINARS, Édition MultiMondes and Québec-Édition, John Lambert & Associés and FRV Media International, Groupe Molior endeavours to further popularize Quebec's burgeoning arts community to its Chinese counterparts.

Mission Quebec – China 2005 lead by Quebec's Premier Jean Charest will boast over 150 Quebec government and business representatives and is set to promote Quebec interests in business, education, science and technology and cultural sectors to China's thriving and fast developing economic community.

Ms Duchaine is delighted that **Mission Quebec - China 2005** will give her the opportunity to revisit contacts made in May when she visited Shanghai, Beijing, Hong Kong and Singapore. The delegation leaves this Wednesday, September the 21st for one week. For more information please visit:
