

**Groupe Molior is pleased to announce its strategic partnership
with the Daniel Langlois Foundation**

The partnership with the **Daniel Langlois Foundation** was established under the *Strategic Grants for Organizations Program*. Groupe Molior is taking on an international prospecting mandate with the goal of presenting an inventory of institutions and artists, as well as the financial support provided by various bodies in the field of new technologies. The mandate will be carried out in the emerging nations supported by the Foundation, such as China, Peru and Brazil. Among other things, the partnership will stimulate exchange, develop relationships between Canadian and foreign participants, and promote reciprocity between artists and institutions in these relationships.

*Jean Gagnon, General Manager of fondation Daniel Langlois
and Andrée Duchaine, General Manager of Groupe Molior*

Note that Groupe Molior carries out 50% of these activities internationally. The organization has presented the work of Canadian artists in France, Portugal, Brazil, Peru and soon China. More to follow...
